	Presentation Content:	4.9	3	5
	Presentation Style:	4.9	3	5

Qualitative Feedback

What were the good points?

Excellent teaching throughout the day
Excellent session; very useful

Basic science talks were excellent
Lectures were brilliant
Useful session, well organised- thanks!
Presentations were good frameworks to guide on where further reading should be done.
Drawing session was brilliant.
Good to get an overview of basic science for the FRCS.
Found the small group sessions really useful in targeting deficiencies
Good talks
Overall extremely good. Rapid at points.
All of this needs to go out as lectures after to consolidate
Good topics
Excellent day. Clearly a big knowledge gap is present.
Very well organised day. Covered lots of topics
Great and interactive. Small group discussions most useful.
Concise and relevant to the exam
Everything. Fantastic day. Thank you.
Excellent day and a good alternative to anatomy day
Covered great topics
Excellent teaching on prosthetics and orthotics
Mr. Mason drawings were great resource for exam. Very patiently explained.
Nick and James covered important topics brilliantly in a short time
Good topic selection
Excellent day
Exam tips
Gave me an idea of what level of knowledge is required to sit the FRCS.
Excellent teaching day. Very informative and excellent

Very good overview of basic science and a nice revision.
Great session very useful
Excellent teaching.
James Widnall and Nick Petersen gave fantastic talks and really memorable and focused.
Presentations were up to the level
Learned many good points
Prosthetist/amputee talks were brilliant
Good tips and common ground covered
Mr Widnall embryology superb
Drawing useful
Structured
Excellent session. Very good faculty with lots of learning points. Thank you very much.
Great day that's given me a kick up the backside
Great session and lectures were outstanding.
Viva practice was very useful and conducted in exam style
Drawings
Amputees management
Cover of lot of topics

What could be improved?

More viva practice
Wish we had this when I started ST3
How to describe an orthotic in an exam.
It would've been good to have the programme available more than a day beforehand.
Split over more days to cover topics in more depth.
Food at lunchtime
Free lunch
Needed the agenda earlier than the day before. Wasn't clear where it was happening.
Anatomy day should be next year
Same again please
Nothing really
More small group discussions
Keep it up
NA
More stock model answers would be good
More table discussions and switch tables
Some presentations are too detailed for viva.
Nil
-
Location
Post course test was very hard!
The orthotics lectures were too quick

Nothing
Toward the end, the content felt a little rushed
Long teaching day. Felt bit tired at the end

Get us a session with prosthetics.
More, harsher viva practice in smaller groups

More viva practice
The short lecture session at the end
Many thanks to Mr Kerin Mr Duckett and the faculty
MCQs are bit hard

Biomechanics presentations

The orthotics and prosthetics can be more directed to the exam
Nothing really
Post test exam did not reflect knowledge covered on the day
