Qualitative Feedback

What were the good points?

Excellent session. The session with the specialist physios was very helpful.
I enjoyed the vivas
Really good mix of viva and clinical stations

Really useful session. Good to have small number long stations.
Good set up for teaching with a truly interactive process.
Style of teaching was relaxed and not too aggressive in most stations
Best session so far
Loved the vivas and live patients
Interactive component
Inclusive of all years
Good basic science
The young adult hip station was particularly good
Great case based discussions.
Good combination of cases and viva questions, positive learning environment created by faculty
Short vignettes
Really good having an FRCS examiner provide critical feedback
Really good to have physios teaching the young hip
Good mix of viva and examination
Excellent teaching covering basic science as well as surgical procedures and complications.
Good explanations
Good viva practice
Excellent exam viva focus
Very good mix of viva and clinicals
High quality of teaching from experienced faculty
Knowledge
Excellent mix of hip cases/science
Consultant delivered. Totally relevant
Well organised
Very good session
Excellent hip/basic science session
Thank you!

Good viva topics. The right ratio of patients to viva.
Young adult hip with the physios was particularly good
Excellent way of teaching basic science and viva technique.
The format should be repeated in future.
Really friendly session. Wasn't afraid to ask questions

What could be improved?

Good session overall.
More sessions like this please
Nil specific
May be a revision hip station as well?

Nothing

Often run out of time on stations

Less time focusing on basics and move through to more complex topics sooner
