	Presentation Content:	4.7	4	5
	Presentation Style:	4.6	4	5

Qualitative Feedback

**What were the good points?**

Excellent faculty. Case mix was very good

Good walkthrough

Good cases

Excellent clinical session

Consultant stayed with the group

Everyone participated

Saw how senior trainees do things

Clinical session excellent. Especially having a rotating consultant as well

Probably the best teaching so far this academic year.

Excellent talks, presentations and cases

Nice mixed session. Concise talk from Mr Philpott.

Great run through and discussion with Dr Bockhler.

The clinical examination practice was helpful to practice technique for the exam.

The finer points for the history were also good.

Knee examinations and patients really useful

Good exam related content

The clinical cases had good mixture of pathologies.

Mr Boyce-Cam lead his clinical group with an exam style which was excellent

Great talk by Mr Farrar

Really good session

Really good teaching

Really good to have the same supervisor for all the patients

Comprehensive review for knee examination.

Clinical cases

Very good concise session about knee.

I really enjoyed the Clinical session as it gave me good opportunity to practice for exam.

Great to have a clinical session just focused on 1 joint

Good talks from NBC, GF and MP!

The best part was the patient contact.

Everyone had at least one case which was excellent!

Very good session. Lot of good cases

Initial presentation was excellent. Very useful tips & tricks.

Clinical examination

Really useful to have clinical cases and go through history and examination tips.

Excellent cases and teaching during clinicals.

**What could be improved**

Nil

Nothing

More cases

More time on plain radiographs

More MRI examples/cases

Nil

Radiology presentation could have been better structured

Nothing

Nil

There were some technical difficulties with some parts of the presentation

Nil

Need regular sessions like these

-

IT was a bit hit and miss!

More time for discussion on clinical cases

Perhaps more opportunity for exam candidates through management viva

Better coffee!!

Nothing - great session

Nothing really

-

More basic teaching for MRIs and point out pathology on the MRI

MRI talk had computer issues.
