Speaker 1: <b>Mr James</b>	Presenter Knowledge:	5.0	4	5
	Presentation Content:	5.0	4	5
	Presentation Style:	4.9	4	5
Speaker 2:	<i>N/A</i>			
Speaker 3:	<i>N/A</i>			

Qualitative Feedback

**What were the good points?**

Clinical case examples  
Excellent format  
Excellent session covering deformity correction and guided growth.  
Learnt about CORA and planning osteotomy and common diagnoses.  
Interactive. Concise. To the point.  
Interactive session  
Simplified the complex topic of limb deformity  
Good venue, relevant topic and interesting presentations  
Good practical explanations  
Very clear presentation style and kept things simple and easy to understand.  
Excellent use of cases.  
Excellent teaching  
Good topics  
Covered some interesting topics.  
Kept it simple and gave good tips for the exam.  
Structure for description of deformity  
Way to formulate plan with respect to projected discrepancy  
Good depth. Good speaker  
Very well presented and informative  
Well simplified. Good cases  
Clinical aspects  
Very informative session  
Consolidated knowledge on both leg length discrepancy and deformity correction  
Clear and simple approach to complex topic. Case examples useful.  
Good explanation of complex topic, good approach to breaking things down for the exam  
Assessment and describing deformities  
Examples  
Good overview of a challenging topic  
Good presentations  
Approachable  
Not information overload

**What could be improved?**

N/a  
No improvements. Well structured session and not overloaded with information.  
Room was too small and due to security... access was difficult.  
To include clinical cases as well  
Some pre reading and then build upon that  
Nothing  
Nothing  
More practical cases  
Clinical cases  
N/a  
Would be nice to reference Paley osteotomy rules as these come up in literature.  
Covered but not stated that it was this rule or that.  
Pre course reading material  
N/a  
-  
Continue  
? some hands on practice on planning for deformity correction in future  
More viva style questioning on the cases for individual feedback  
Pre-reading.  
nothing  
Nothing  
More basic science  
More examples  
Maybe some real patients though that might be a little inappropriate
