Qualitative Feedback

What were the good points?

Mr Kapoor ran a good session on compartment syndrome.
Format was very good and useful.

CBD stations. Question and answer session

Good chance to achieve critical cbd

Update on the new boast standards

Good level of detail

Interactive

Clear method to get a cbd

Mr Narayan session excellent.

Good revision

Feel more confident knowing the long term sequelae of fasciotomies

Good organisation and venue. Very knowledgeable presenters.

Excellent detail of topics

Clearly presented

Very well organised.

To the point.

Key info covered.

Good chance to go over updates related to important topics.

Topics were covered well.

Basic sciences to post surgical care, rehabilitation and even conservative options were discussed.

Well organised informative session. Useful interactive CBD.

Mr Ralte did a very good interactive session that was extremely useful.

The session covered ACS and open fractures very well.

Excellent session

Really good detail on compartment syndrome appropriate for the FrCs exam

Covered in depth

Helped to clarify plans for dealing with these conditions.

Interactive session

Good clear

Mr Ralte did an outstanding presentation. Thank you!

He should run a whole teaching session next time!

Great to know topics before hand and that the opportunity for CBDs would be given.

Good content. Common area of clinical practice.

Excellent topic covered in a depth

Only focused on a couple of topics and didn't try to cover too much

CBD opportunity

Excellent content

New points learnt

CBD discussion

What could be improved

Nothing

Nothing

Good session

PowerPoint slides not in sync with presentation

Nothing

Dropbox with presentations on

More rigid CBS's ended up being more of a group discussion and lecture

More pathophysiology

More structured CBD environment

Viva needs to be more structured and with proper ground rules

More similar sessions

-

-

Maybe break off into smaller groups to stimulate more interaction?

Email the presentations

Nil

This style of session mainly benefits the trainees doing the CBD.

Hand outs or recommended reading list prior to the session

Sometimes hard to hear the answers being given

More real life cases

N/A

-

More notice of CBD topics to be prepared.

Open fracture presentation guidance.

Very little

Nothing specifically

Nil

Nil

Smaller group CBD
