Qualitative Feedback

What were the good points?

Clear explanation of brachial plexus and injuries. Very helpful.
Interactive. Aim was beautifully outlined. Further reading materials discussed
Good interactive sessions
Treatment algorithms are simplified
Exam oriented teaching
Mr Walton teaching was excellent
Helpful techniques to remember pathology
Interactive
Excellent session packed with useful information.
Both talks were well prepared and expertly delivered.

Extremely good session.
Both the speakers broke down complex stuff in easy understandable form really useful.
Excellent teaching
Both speaker were excellent with very interactive teaching styles.
A lot was covered, nicely broken down.
Excellent session

Good revision and interactive
It was always a pleasure listening to Roger Walton
The talk and very helpful in consolidating my knowledge prior to exams.
Growth plate description and teaching was brilliant
Nice review of obpi from a non orthopaedic view point
Good focus from both talk on easy ways of remembering.
Excelent mr Walton best session of year
Step by step assessment of the dysplasias
Mr Walton's presentation
very useful
very structured
Good
Really good second lecture on bone dysplasias
Mr Walton particularly excellent as always.
If I spend enough time with Mr Walton feel as through I'd pass the exam!
Really good session. Thank you.

What could be improved?

No
Nil

Nothing
NA

Nil

Nothing really
Have another session for guided growth
None

None.
maybe some coffee can help.
Case based teaching around obstetric brachial plexus injuries
Less time on a single case of madelungs.
Be nice for the spot cases to be a longer session
If we could have the power point presentations
None
Nothing

-

Nil
lecture on OBPI though informative was delivered in quite a patronising way.
Nothing especially
